

5th Annual Soybean Biotechnology Symposium

Tuesday, April 21, 2009

Christopher S. Bond Life Sciences Center

Sponsored by: National Center for Soybean Biotechnology

Soybean research offers promising solutions to food, health, and energy concerns worldwide. Distinguished speakers at the MU campus' premier annual event to present and discuss topics in soybean research will be: Drs. Richard Wilson, Wayne Parrott, and Joseph Burton. You are invited to participate in this event. Please review the Symposium Events below and register (no cost) to participate at www.soybiotechcenter.org/symposium.php

Call for Posters

Gain visibility and showcase your research by submitting a poster. Registration and poster guidelines can be found at www.soybiotechcenter.org/symposium.php

All areas of soybean research are welcome!

Deadline to submit a poster is April 9, 2009

Symposium Events:

9:00 – 9:45am

Registration and Welcome Reception
Monsanto Auditorium Pre-Function Area (Foyer)

9:45 – 10:30am

Opening Remarks:
Monsanto Auditorium – Life Sciences Center

10:30 – 11:30am

Dr. Richard Wilson, PhD
Oilseeds & Bioscience Consulting
Title of Talk: Bridging the Gap between R&D and Consumer Demand for Soybean Products
Monsanto Auditorium – Life Sciences Center

11:45am - 1:30pm

Lunch – invited guests only

1:30 – 2:30pm

Dr. Wayne Parrott, Professor
Department of Crop & Soil Science; University of Georgia
Title of Talk: Classical and Genomic Approaches to Insect Resistance in Soybeans
Monsanto Auditorium – Life Sciences Center

2:30 - 3:00pm

Afternoon Break

3:00 - 4:00pm

Dr. Joseph Burton, USDA-ARS
Professor of Crop & Soil Science; North Carolina State University
Title of Talk: Plant Breeding Solutions to Soybean Oil Problems
Poehlman Lecturer
Monsanto Auditorium – Life Sciences Center

4:00 - 6:00pm

Closing Reception and Poster Session
McQuinn Atrium
Life Sciences Center
